

2.31 Recycled Carbon Chair

by Marleen Kaptein & NLR

Designer	Marleen Kaptein
Year of design	2015
Material	Carbon Fibre

LABEL

BREED

COLOURS

Carbon black O

TECHNICAL

The chair is made of recycled carbon fibres that are been cutted and mixed together with the epoxy. The mix is put into a mould, wich has the actual shape of the chair. When the mix is fully hardened, you will have a chair with a strong and lightweight surface.
